# Index to Volume 77

July–December, 1992

## Author Index

ADEGBITE AB, KHAN MI, TAN L. Facial nerve decompression following a basilar skull fracture. Letters, 332
ADLER JR. *See* Steiner L, 1, 823
———. *See* Winston KR, 889
AHUJA A, GUTERMAN LR, HOPKINS LN. Angioplasty for basilar artery atherosclerosis. Case report, 941
AKIYAMA Y. *See* Miyamoto S, 812
ALBRECHT S, CRUTCHFIELD JS, SEGALL GK. On spinal osteochondromas, 247
ALBRIGHT AL. *See* Pollack IF, 881
ALEXANDER E III. *See* Carvalho PA, 565
ALI IU. *See* Berkman RA, 432
ALKSNE JF. *See* Wrobel CJ, 476
ALLUT AG. *See* Bollar A, 469
ALMAGRO MJ. *See* Martinez-Lage JF, 230
AL-MEFTY O. *See* Demonte F, 312
ALVES W. *See* Steiner L, 1, 823
ANDERSON BA. Book review, 484
ANDERSON RE. *See* Goldman MS, 911
ANDERSSON C. *See* Pero RW, 601
ANDREWS PJD. *See* Chan KH, 55
AOKI N. Aortic coarctation and remote cerebral fistulae. Letters, 163
APUZZO MLJ. *See* Schneider J, 265
ARCHER D. *See* Tranmer BI, 253
ARTICO M. *See* Delfini R, 959
ASAHI S. *See* Miyamoto S, 812
ASAI A. *See* Vandertop WP, 541
ASANO T. *See* Suzuki Y, 424
ASSAKER R. *See* Blond S, 62
AWAD IA. Book review, 156
AYMARD A. *See* Gobin YP, 718

BABA T, CHIO CC, BLACK KL. The effect of 5-lipoxygenase inhibition on blood-brain barrier permeability in experimental brain tumors, 403
———. *See* Chio CC, 407
BABB TL. *See* Nakasato N, 194
BAKAY RAE, DELONG MR, VITEK JL. Posteroventral pallidotomy for Parkinson's disease. Letters, 487
BAKER CJ, ONESTI ST, SOLOMON RA. Reduction by delayed hypothermia of cerebral infarction following middle cerebral artery occlusion in the rat: a time-course study, 438
BALL PA, BENZEL EC. Intracranial pressure with head elevation. Letters, 651
BANDOH K. *See* Bouma GJ, 15
BARBARO NM. *See* Obana WG, 632
BASKIN DS. *See* Bracken MB, 324
BATJER HH. *See* Purdy PD, 217
BAYSTON R. *See* Pople IK, 29
BECERRA E. *See* Bollar A, 469
BECKER DP. *See* Black KL, 120
———. *See* Martin NA, 575
BECKER LE. *See* Vandertop WP, 541
BEDERSON JB, ZABRAMSKI JM, SPETZLER RF. Treatment of fusiform intracranial aneurysms by circumferential wrapping with clip reinforcement. Technical note, 478
BENZEL EC. *See* Ball PA, 651
———. *See* Vining DJ, 795
BERENSTEIN A. *See* Guglielmi G, 515
———. *See* Kupersmith MJ, 690
BERGER MS. *See* Duong DH, 151
———. *See* Haglund MM, 209
BERKMAN RA, CLARK WC, SAXENA A, ROBERTSON JT, OLDFIELD EH, ALI IU. Clonal composition of glioblastoma multiforme, 432
BERNANKE DH. *See* Smith RR, 327
BERNARDO KL. *See* Goldring S, 185
———. *See* Tempelhoff R, 201
BEULS E. *See* Yoshida TK, 451
BHOJRAJ SY, SHAHANE SM. Posttraumatic cervical spondyloptosis at C6–7 with late-onset cord compression. Case report, 792
BICKNELL JM. Book review, 816
BIGGS MT. *See* Morgan MK, 463
BILSKY MH. *See* Lavyne MH, 90
BIZZOZERO L. *See* Talamonti G, 161
BLAAUW G. *See* van den Berge JH, 545
BLACK KL, CHEN K, BECKER DP, MERRILL JE. Inflammatory leukocytes associated with increased immunosuppression by glioblastoma, 120
———. *See* Baba T, 403
———. *See* Chio CC, 407
BLAYDES LZ. *See* Glick RP, 445
BLOND S, CAPAROS-LEFEBVRE D, PARKER F, ASSAKER R, PETIT H, GUIEU JD, CHRISTIAENS JL. Control of tremor and involuntary movement disorders by chronic stereotactic stimulation of the ventral intermediate thalamic nucleus, 62
BLUNT BA. *See* Piek J, 901
BOGEN JE. Mild closed-head injury and seizures. Letters, 654
BOLLAR A, ALLUT AG, PRIETO A, GELABERT M, BECERRA E. Sinus pericranii: radiological and etiopathological considerations. Case report, 469
BOUMA GJ, MUIZELAAR JP, BANDOH K, MARMAROU A. Blood pressure and intracranial pressure-volume dynamics in severe head injury: relationship with cerebral blood flow, 15
———, STRINGER WA, CHOI SC, FATOUROS P, YOUNG HF. Ultra-early evaluation of regional cerebral blood flow in severely head-injured patients using xenon-enhanced computerized tomography, 360

## Subject Index

Abscess
$^{99m}$Tc-hexamethylpropyleneamine oxime leukocyte scintigraphy and C-reactive protein levels in the differential diagnosis of brain abscesses, 732
ACNU
Intrathecal chemotherapy with ACNU in a meningeal gliomatosis rat model, 778
Isolation and preliminary characterization of ACNU-resistant sublines and rat brain tumors *in vivo*, 451
Acoustic neurilemoma
Late course of preserved hearing and tinnitus after acoustic neurilemoma surgery, 685
Acoustic neurinoma
Long-term evaluation of decompressive surgery for degenerative lumbar stenosis, 669
The significance for postoperative hearing of preserving the labyrinth in acoustic neurinoma surgery, 677
Adenosine diphosphate
Mononuclear leukocyte ADP-ribosylation as an indicator of immune function in malignant-glioma patients treated with betamethasone for cerebral edema, 601
American Association of Neurological Surgeons
The AANS: The national and international organization for neurological surgery. The 1992 AANS presidential address, 663
Aminobutyric acid
Changes in gamma-aminobutyric acid and somatostatin in epileptic cortex associated with low-grade gliomas, 209
Amygdala
Results of anterior temporal lobectomy that spares the amygdala in patients with complex partial seizures, 185
Anaplastic astrocytoma
Cytokines and immunoregulatory molecules in malignant glial neoplasms, 265
Anastomosis, nerve
Hypoglossal-facial nerve anastomosis for facial nerve palsy following surgery for cerebellopontine angle tumors, 724
Long-term results of spinal accessory nerve-facial nerve anastomosis, 51
Anastomosis, vascular, *see* Bypass procedure
Anatomical study
Variability of the territories of the major cerebral arteries, 927
Aneurysm
Acute cauda equina syndrome from a ruptured aneurysm in the sacral canal. Case report, 945
Aneurysm recurrence following endovascular balloon occlusion, 260
The benign course of cavernous carotid artery aneurysms, 690
Direct thrombosis of aneurysms with cellulose acetate polymer. Part I: Results of thrombosis in experimental aneurysms, 497
Direct thrombosis of aneurysms with cellulose acetate polymer. Part II: Preliminary clinical experience, 501
Effects of intermittent reperfusion during temporal focal ischemia, 911
Endovascular treatment of posterior circulation aneurysms by electrothrombosis using electrically detachable coils, 515
Facial pain due to vascular lesions of the brain stem relieved by dorsal root entry zone lesions in the nucleus caudalis. Report of two cases, 473
Giant thrombosed vertebral artery aneurysm managed with extracranial-intracranial bypass surgery and aneurysmectomy. Case report, 624
Interhemispheric approach with callosal resection for distal anterior cerebral artery aneurysms. Technical note, 481
Isolated intramedullary spinal artery aneurysm presenting with quadriplegia. Case report, 148
The role of endothelin-1 in the origin of cerebral vasospasm in patients with aneurysmal subarachnoid hemorrhage, 96
The treatment of associated intracranial aneurysms and arteriovenous malformations, 853
Thrombosis of difficult intracranial aneurysms by the endovascular placement of platinum-Dacron microcoils, 43
Treatment of fusiform intracranial aneurysms by circumferential wrapping with clip reinforcement. Technical note, 478
Unruptured aneurysms and postoperative volume expansion, 908
Aneurysm clip, *see* Clip
Aneurysm, dissecting
Rebleeding from vertebral artery dissection after proximal clipping. Case report, 466
Aneurysm, giant
Giant thrombosed vertebral artery aneurysm managed with extracranial-intracranial bypass surgery and aneurysmectomy. Case report, 624
Selection and combination of various endovascular techniques in the treatment of giant aneurysms, 37
Aneurysm, saccular
Intracranial lipoma associated with cerebral saccular aneurysm. Case report, 640
Aneurysm, traumatic
Intracranial arterial aneurysm due to birth trauma. Case report, 799
Angiography
Intracranial lipoma associated with cerebral saccular aneurysm. Case report, 640
Sinus pericranii: radiological and etiopathological considerations. Case report, 469
Angioplasty
Angioplasty for basilar artery atherosclerosis. Case report, 941
Superselective intra-arterial infusion of papaverine for the treatment of cerebral vasospasm after subarachnoid hemorrhage, 842
Ankylosing spondylitis
Management of cervical spinal cord injury in ankylosing spondylitis: the intervertebral disc as a cause of cord compression, 241
Anterior cerebral artery
Interhemispheric approach with callosal resection for distal anterior cerebral artery aneurysms. Technical note, 481
Variability of the territories of the major cerebral arteries, 927
Aortic coarctation
Aortic coarctation and remote cerebral fistulae. Letters, 163
Arachnoid cyst
Spinal arachnoid cysts in the pediatric age group: an association with neural tube defects, 369
Arachnoiditis
Syrinx shunt to posterior fossa cisterns (syringocisternostomy) for bypassing obstructions of upper cervical theca, 871
Arachnoid villi
Expression of cell adhesion molecule E-cadherin in human arachnoid villi, 749
Arnold-Chiari malformation
Chiari malformation with compression of the medulla oblongata by the vertebral arteries. Case report, 307
Arteriole
An *in vitro* comparative study of conducting vessels and penetrating arterioles after experimental subarachnoid hemorrhage in the rabbit, 113
Arteriovenous fistula, *see* Fistula
Arteriovenous malformation
Arteriovenous malformations of the brain: choosing embolic materials to enhance safety and ease of excision, 217

# Index

Clinical outcome of radiosurgery for cerebral arteriovenous malformations, 1
Facial pain due to vascular lesions of the brain stem relieved by dorsal root entry zone lesions in the nucleus caudalis. Report of two cases, 473
*In situ* photocoagulation of spinal dural arteriovenous malformations using the Nd:YAG laser, 571
Linear accelerator radiosurgery for arteriovenous malformations, 832
Outcome of radiosurgery for cerebral AVM. Letter, 823
The treatment of associated intracranial aneurysms and arteriovenous malformations, 853
Venous drainage in hemorrhage from AVM's. Letters, 822
Venous drainage system and risk of hemorrhage from AVM's. Letters, 652
Artery, *see* specific artery
Astrocytoma, *see also* Anaplastic astrocytoma, Juvenile pilocytic astrocytoma
Adult intramedullary astrocytomas of the spinal cord, 355
Detection of recurrent gliomas with quantitative thallium-201/technetium-99m HMPAO single-photon emission computerized tomography, 565
Leptomeningeal dissemination of cerebellar pilocytic astrocytoma. Case report, 788
Temporal lobe tumor demonstrating ganglioglioma and pleomorphic xanthoastrocytoma components. Case report, 143
Atherosclerosis
Angioplasty for basilar artery atherosclerosis. Case report, 941
Autoregulation
Blood pressure and intracranial pressure-volume dynamics in severe head injury: relationship with cerebral blood flow, 15
The effect of changes in cerebral perfusion pressure upon middle cerebral artery blood flow velocity and jugular bulb venous oxygen saturation after severe brain injury, 55
Loss of cerebral regulation during cardiac output variations in focal cerebral ischemia, 253

Baclofen
Intrathecal baclofen for spasticity of spinal origin: seven years of experience, 236
Bacterial infection
Infection of cerebrospinal fluid shunts in infants: a study of etiological factors, 29
Balloon occlusion
Aneurysm recurrence following endovascular balloon occlusion, 260
Emergency embolectomy for embolic occlusion of the middle cerebral artery after internal carotid artery balloon test occlusion. Case report, 134
Barnes Hospital
Barnes Hospital and the Washington University Medical Center, 318
Basilar artery
Angioplasty for basilar artery atherosclerosis. Case report, 941
Direct embolectomy of the basilar artery bifurcation. Case report, 463
Betamethasone
Mononuclear leukocyte ADP-ribosylation as an indicator of immune function in malignant-glioma patients treated with betamethasone for cerebral edema, 601
Birth injury
Intracranial arterial aneurysm due to birth trauma. Case report, 799
Blood-brain barrier
The effect of 5-lipoxygenase inhibition on blood-brain barrier permeability in experimental brain tumors, 403
Selective blood-tumor barrier disruption by leukotrienes, 407

Expanded spectrum of viral therapy in the treatment of nervous system tumors, 590
$^{99m}$Tc-hexamethylpropyleneamine oxime leukocyte scintigraphy and C-reactive protein levels in the differential diagnosis of brain abscesses, 732

A morphological and ultrastructural investigation of normal mouse brain tissue after intracerebral injection of tumor necrosis factor, 279
Regional metabolism in experimental brain tumors in cats: relationship with acid/base, water, and electrolyte homeostasis, 917
Resection for solitary brain metastasis. Role of adjuvant radiation and prognostic variables in 229 patients, 531
Selective blood-tumor barrier disruption by leukotrienes, 407
Temporal lobe tumor demonstrating ganglioglioma and pleomorphic xanthoastrocytoma components. Case report, 143
Tumors of the lateral wall of the cavernous sinus, 508
Brain stem
Arterial hypertension and neurovascular compression at the ventrolateral medulla. A comparative microanatomical and pathological study, 103
Facial pain due to vascular lesions of the brain stem relieved by dorsal root entry zone lesions in the nucleus caudalis. Report of two cases, 473
Brain-stem compression
Outcome following hindbrain decompression of symptomatic Chiari malformations in children previously treated with myelomeningocele closure and shunts, 881
Brain swelling
Ultra-early evaluation of regional cerebral blood flow in severely head-injured patients using xenon-enhanced computerized tomography, 360
Brain water
Aggravation of vasogenic cerebral edema by multiple-dose mannitol, 584
Bromodeoxycytidine
Is vasospasm related to proliferative arteriopathy, 740
Bromodeoxyuridine
Leptomeningeal dissemination of cerebellar pilocytic astrocytoma. Case report, 788
Bypass procedure
Giant thrombosed vertebral artery aneurysm managed with extracranial-intracranial bypass surgery and aneurysmectomy. Case report, 624
Saphenous vein graft to the distal vertebral artery between C-1 and C-2 using a lateral-anterior approach. Technical note, 812

Cadherin
Expression of cell adhesion molecule E-cadherin in human arachnoid villi, 749
Calcium channel blocker
Evaluation of a novel calcium channel blocker, (S)-emopamil, on regional cerebral edema and neurobehavioral function after experimental brain injury, 607
Cardiac output
Loss of cerebral regulation during cardiac output variations in focal cerebral ischemia, 253
Carotid artery occlusion
Emergency embolectomy for embolic occlusion of the middle cerebral artery after internal carotid artery balloon test occlusion. Case report, 134
Cauda equina syndrome
Acute cauda equina syndrome from a ruptured aneurysm in the sacral canal. Case report, 945
Cavernous carotid artery
The benign course of cavernous carotid artery aneurysms, 690
Cavernous sinus
Emergency embolectomy for embolic occlusion of the middle cerebral artery after internal carotid artery balloon test occlusion. Case report, 134
Ruptured dermoid tumor of the cavernous sinus associated with the syndrome of fat embolism. Case report, 312
Tumors of the lateral wall of the cavernous sinus, 508
Cell adhesion
Expression of cell adhesion molecule E-cadherin in human arachnoid villi, 749
Cellulose acetate polymer
Direct thrombosis of aneurysms with cellulose acetate polymer. Part I: Results of thrombosis in experimental aneurysms, 497
Direct thrombosis of aneurysms with cellulose acetate polymer. Part II: Preliminary clinical experience, 501
Cerebral blood flow
Blood pressure and intracranial pressure-volume dynamics in severe head injury: relationship with cerebral blood flow, 15
The effect of changes in cerebral perfusion pressure upon middle cerebral artery blood flow velocity and jugular bulb venous oxygen saturation after severe brain injury, 55
Loss of cerebral regulation during cardiac output variations in focal cerebral ischemia, 253
Posttraumatic cerebral arterial spasm: transcranial Doppler ultrasound, cerebral blood flow, and angiographic findings, 575
The treatment of associated intracranial aneurysms and arteriovenous malformations, 853
Ultra-early evaluation of regional cerebral blood flow in severely head-injured patients using xenon-enhanced computerized tomography, 360
Cerebral metabolism
Blood pressure and intracranial pressure-volume dynamics in severe head injury: relationship with cerebral blood flow, 15
Cerebral palsy
Botulinum toxin enhancement of postoperative immobilization in patients with cervical dystonia. Technical note, 808
Cerebral perfusion pressure
The effect of changes in cerebral perfusion pressure upon middle cerebral artery blood flow velocity and jugular bulb venous oxygen saturation after severe brain injury, 55
Cerebral protection
Effects of intermittent reperfusion during temporal focal ischemia, 911
Cerebrospinal fluid
Expression of cell adhesion molecule E-cadherin in human arachnoid villi, 749
Spinal arachnoid cysts in the pediatric age group: an association with neural tube defects, 369
Cerebrospinal fluid leak
Usefulness of $\beta_2$-transferrin assay in the detection of cerebrospinal fluid leaks following head injury, 737
Cerebrovascular system
Arteriovenous malformations of the brain: choosing embolic materials to enhance safety and ease of excision, 217
Cervical dystonia
Botulinum toxin enhancement of postoperative immobilization in patients with cervical dystonia. Technical note, 808
Cervical spine
Tenosynovial giant-cell tumor of the cervical spine. Case report, 952
Chemotherapy, *see* specific drugs
Chiari malformation
Outcome following hindbrain decompression of symptomatic Chiari malformations in children previously treated with myelomeningocele closure and shunts, 881
Scoliosis in pediatric Chiari malformations without myelodysplasia, 69
Surgical decompression for symptomatic Chiari II malformation in neonates with myelomeningocele, 541
Syrinx shunt to posterior fossa cisterns (syringocisternostomy) for bypassing obstructions of upper cervical theca, 871
Children
Childhood odontoid fractures evaluated with computerized tomography. Case report, 795
Outcome following hindbrain decompression of symptomatic Chiari malformations in children previously treated with myelomeningocele closure and shunts, 881
Pediatric spinal injury: review of 174 hospital admissions, 700
Pediatric spinal injury: review of 61 deaths, 705

# Index

Chordoma
The subtemporal, transcavernous, anterior transpetrosal approach to the upper brain stem and clivus, 709
Chromosome 10
Association of epidermal growth factor receptor gene amplification with loss of chromosome 10 in human glioblastoma multiforme, 295
Clip
Treatment of fusiform intracranial aneurysms by circumferential wrapping with clip reinforcement. Technical note, 478
Clivus
The subtemporal, transcavernous, anterior transpetrosal approach to the upper brain stem and clivus, 709
Clonal composition
Clonal composition of glioblastoma multiforme, 432
Coccidioidomycosis
Retromastoid cisternal Ommaya reservoir for intrathecal therapy of coccidioidomycosis meningitis. Technical note, 476
Coil
Direct embolectomy of the basilar artery bifurcation. Case report, 463
Endovascular treatment of posterior circulation aneurysms by electrothrombosis using electrically detachable coils, 515
Thrombosis of difficult intracranial aneurysms by the endovascular placement of platinum-Dacron microcoils, 43
Cold lesion
Aggravation of vasogenic cerebral edema by multiple-dose mannitol, 584
Collagen
Comparability of vasospasm in primates. Letters, 327
Collagenase
Serum proteolytic activity during the growth of C6 astrocytoma, 595
Complex partial seizure, *see also* Seizures
Fentanyl-induced electrocorticographic seizures in patients with complex partial epilepsy, 201
Computerized tomography
Childhood odontoid fractures evaluated with computerized tomography. Case report, 795
Measurement of tumor resection volumes from computerized images. Technical note, 151
Moderate head injury: a guide to initial management, 562
The significance for postoperative hearing of preserving the labyrinth in acoustic neurinoma surgery, 677
Two fluid-blood density levels in chronic subdural hematoma. Case report, 310
Ultra-early evaluation of regional cerebral blood flow in severely head-injured patients using xenon-enhanced computerized tomography, 360
Cordectomy
Intractable pain of spinal cord origin: clinical features and implications for surgery, 373
Cordotomy
Intractable pain of spinal cord origin: clinical features and implications for surgery, 373
Corpus callosum
Dorsal third ventricular cyst: an entity distinct from holoprosencephaly, 556
Interhemispheric approach with callosal resection for distal anterior cerebral artery aneurysms. Technical note, 481
Cortex
Clearance of brain edema and macromolecules through the cortical extracellular space, 387
Corticectomy
Cerebral hemicorticectomy for epilepsy, 889
Corticospinal tract
Cruciate paralysis. Letters, 329
Corticosteroid
Epidural steroids, postoperative morbidity, and recovery in patients undergoing microsurgical lumbar discectomy, 90
Mononuclear leukocyte ADP-ribosylation as an indicator of immune function in malignant-glioma patients treated with betamethasone for cerebral edema, 601
Cranial meningocele
Atretic cephalocele: the tip of the iceberg, 230
Cranial nerve, *see also* specific nerves
Suction control attachment for ultrasonic aspirators. Technical note, 316
Craniopharyngioma
Intracavitary brachytherapy of cystic craniopharyngiomas, 545
Remote recurrence of craniopharyngioma in the epidural space. Case report, 804
Craniotomy
Resection for solitary brain metastasis. Role of adjuvant radiation and prognostic variables in 229 patients, 531
Craniovertebral junction
The influence of transoral odontoid resection on stability of the craniovertebral junction, 525
C-reactive protein
$^{99m}$Tc-hexamethylpropyleneamine oxime leukocyte scintigraphy and C-reactive protein levels in the differential diagnosis of brain abscesses, 732
Cruciate paralysis
Cruciate paralysis. Letters, 329
Cyanoacrylate
Arteriovenous malformations of the brain: choosing embolic materials to enhance safety and ease of excision, 217
Cyst, dermoid
Ruptured dermoid tumor of the cavernous sinus associated with the syndrome of fat embolism. Case report, 312
Cyst, pineal
Surgical management of symptomatic pineal cysts, 896
Cyst, ventricular
Dorsal third ventricular cyst: an entity distinct from holoprosencephaly, 556
Cysticercus cyst
Transaqueductal migration of a neurocysticercus cyst. Case report, 956
Cytokine
Antiproliferative cytokines secreted by lymphokine-activated killer cells stimulated with tumor cells, 411
Cytotoxicity
Antitumor activity against established intracerebral gliomas exhibited by cytotoxic T lymphocytes, but not by lymphokine-activated killer cells, 757

Data collection
Traumatic Coma Data Bank data-collection protocol. Letter, 159
Decompression surgery
Posttraumatic cervical spondyloptosis at C6–7 with late-onset cord compression. Case report, 792
Surgical decompression for symptomatic Chiari II malformation in neonates with myelomeningocele, 541
Deferoxamine
Inhibition of delayed arterial narrowing by the iron-chelating agent deferoxamine, 763
Discectomy
Epidural steroids, postoperative morbidity, and recovery in patients undergoing microsurgical lumbar discectomy, 90
Dopamine receptor
Presence of dopamine $D_1$ receptors and absence of dopamine $D_2$ receptors in human cerebral meningioma tissue, 288
Dorsal root ganglion
Effects of different methods of peripheral nerve repair on the number and distribution of muscle afferent neurons in rat dorsal root ganglion, 457
Drug delivery
Clinical effect of intra-arterial tumor necrosis factor-$\alpha$ for malignant glioma, 78

Intrathecal baclofen for spasticity of spinal origin: seven years of experience, 236
Intrathecal chemotherapy with ACNU in a meningeal gliomatosis rat model, 778
Dural fibromatosis
Dural fibromatosis. Letters, 163
Dura propria
Tumors of the lateral wall of the cavernous sinus, 508

Ectopia
Remote recurrence of craniopharyngioma in the epidural space. Case report, 804
Edema
Aggravation of vasogenic cerebral edema by multiple-dose mannitol, 584
Clearance of brain edema and macromolecules through the cortical extracellular space, 387
Evaluation of a novel calcium channel blocker, (S)-emopamil, on regional cerebral edema and neurobehavioral function after experimental brain injury, 607
Mononuclear leukocyte ADP-ribosylation as an indicator of immune function in malignant-glioma patients treated with betamethasone for cerebral edema, 601
Occlusion of the pig superior sagittal sinus, bridging and cortical veins: multistep evolution of sinus-vein thrombosis, 127
Regional metabolism in experimental brain tumors in cats: relationship with acid/base, water, and electrolyte homeostasis, 917
Editorial comment
Guest editorial: Neurovascular compression and essential hypertension, 101
Electrocorticography
Fentanyl-induced electrocorticographic seizures in patients with complex partial epilepsy, 201
Long-term ictal monitoring with subdural strip electrodes: prognostic factors for selecting temporal lobectomy candidates, 20
Results of anterior temporal lobectomy that spares the amygdala in patients with complex partial seizures, 185
Electrolyte
Regional metabolism in experimental brain tumors in cats: relationship with acid/base, water, and electrolyte homeostasis, 917
Electrothrombosis
Endovascular treatment of posterior circulation aneurysms by electrothrombosis using electrically detachable coils, 515
Embolectomy
Direct embolectomy of the basilar artery bifurcation. Case report, 463
Embolization
Arteriovenous malformations of the brain: choosing embolic materials to enhance safety and ease of excision, 217
Emergency embolectomy for embolic occlusion of the middle cerebral artery after internal carotid artery balloon test occlusion. Case report, 134
Endovascular treatment of intracranial dural arteriovenous fistulas with spinal perimedullary venous drainage, 718
Precise terminology in scientific communications. Letter, 159
Ruptured dermoid tumor of the cavernous sinus associated with the syndrome of fat embolism. Case report, 312
Selection and combination of various endovascular techniques in the treatment of giant aneurysms, 37
The treatment of associated intracranial aneurysms and arteriovenous malformations, 853
Encephalocele
Atretic cephalocele: the tip of the iceberg, 230
Bilateral morning glory syndrome associated with sphenoid encephalocele. Case report, 949
Endocrine dysfunction
Intracavitary brachytherapy of cystic craniopharyngiomas, 545
Endothelial cell
An artificial blood vessel with an endothelial-cell monolayer, 397
Endothelin
Oxyhemoglobin stimulation of endothelin production in cultured endothelial cells, 274
The role of endothelin-1 in the origin of cerebral vasospasm in patients with aneurysmal subarachnoid hemorrhage, 96
Endovascular surgery
Direct thrombosis of aneurysms with cellulose acetate polymer. Part I: Results of thrombosis in experimental aneurysms, 497
Direct thrombosis of aneurysms with cellulose acetate polymer. Part II: Preliminary clinical experience, 501
Endovascular treatment of posterior circulation aneurysms by electrothrombosis using electrically detachable coils, 515
Thrombosis of difficult intracranial aneurysms by the endovascular placement of platinum-Dacron microcoils, 43
Epidermal growth factor
Association of epidermal growth factor receptor gene amplification with loss of chromosome 10 in human glioblastoma multiforme, 295
Epilepsy, *see* Seizure
Epilepsy surgery
Long-term ictal monitoring with subdural strip electrodes: prognostic factors for selecting temporal lobectomy candidates, 20
Epileptogenic tissue
Seizure outcome following standard temporal lobectomy: correlation with hippocampal neuron loss and extrahippocampal pathology, 194
Erratum
Selection bias, survival, and brachytherapy for glioma: correction. Letter, 489
Extracellular matrix
Clearance of brain edema and macromolecules through the cortical extracellular space, 387
Comparability of vasospasm in primates. Letters, 327
Eye motility
Experimental repair of the oculomotor nerve: the anatomical paradigms of functional regeneration, 768

Facial nerve
Facial nerve decompression following a basilar skull fracture. Letters, 332
Hypoglossal-facial nerve anastomosis for facial nerve palsy following surgery for cerebellopontine angle tumors, 724
Long-term results of spinal accessory nerve-facial nerve anastomosis, 51
Facial pain
Facial pain due to vascular lesions of the brain stem relieved by dorsal root entry zone lesions in the nucleus caudalis. Report of two cases, 473
Fat embolism
Ruptured dermoid tumor of the cavernous sinus associated with the syndrome of fat embolism. Case report, 312
Fentanyl
Fentanyl-induced electrocorticographic seizures in patients with complex partial epilepsy, 201
Fistula
Aortic coarctation and remote cerebral fistulae. Letters, 163
Endovascular treatment of intracranial dural arteriovenous fistulas with spinal perimedullary venous drainage, 718
*In situ* photocoagulation of spinal dural arteriovenous malformations using the Nd:YAG laser, 571
Usefulness of $\beta_2$-transferrin assay in the detection of cerebrospinal fluid leaks following head injury, 737

# Index

Fluid-percussion injury
Evaluation of a novel calcium channel blocker, (S)-emopamil, on regional cerebral edema and neurobehavioral function after experimental brain injury, 607
Free radical
Inhibition of delayed arterial narrowing by the iron-chelating agent deferoxamine, 763

Ganglioglioma
Diffuse leptomeningeal involvement by a ganglioglioma in a child. Case report, 302
Temporal lobe tumor demonstrating ganglioglioma and pleomorphic xanthoastrocytoma components. Case report, 143
Gene amplification
Association of epidermal growth factor receptor gene amplification with loss of chromosome 10 in human glioblastoma multiforme, 295
Giant-cell tumor
Tenosynovial giant-cell tumor of the cervical spine. Case report, 952
Glioblastoma
Association of epidermal growth factor receptor gene amplification with loss of chromosome 10 in human glioblastoma multiforme, 295
Clonal composition of glioblastoma multiforme, 432
Cytokines and immunoregulatory molecules in malignant glial neoplasms, 265
Inflammatory leukocytes associated with increased immunosuppression by glioblastoma, 120
Glioma
Antiproliferative cytokines secreted by lymphokine-activated killer cells stimulated with tumor cells, 411
Antitumor activity against established intracerebral gliomas exhibited by cytotoxic T lymphocytes, but not by lymphokine-activated killer cells, 757
Changes in gamma-aminobutyric acid and somatostatin in epileptic cortex associated with low-grade gliomas, 209
Clinical effect of intra-arterial tumor necrosis factor-$\alpha$ for malignant glioma, 78
Detection of recurrent gliomas with quantitative thallium-201/technetium-99m HMPAO single-photon emission computerized tomography, 565
Intrathecal chemotherapy with ACNU in a meningeal gliomatosis rat model, 778
Isolation and preliminary characterization of ACNU-resistant sublines and rat brain tumors *in vivo*, 451
Mononuclear leukocyte ADP-ribosylation as an indicator of immune function in malignant-glioma patients treated with betamethasone for cerebral edema, 601
Proliferative potential of T-cell lymphocytes from gliomas. Letters, 820
Selection bias, survival, and brachytherapy for glioma: correction. Letter, 489
Serum proteolytic activity during the growth of C6 astrocytoma, 595
Gliosarcoma
Isolation and preliminary characterization of ACNU-resistant sublines and rat brain tumors *in vivo*, 451
Gliosis
Resection of dominant opercular gliosis in refractory partial epilepsy. Report of two cases, 632
Graft, *see also* Vascular graft
Effects of different methods of peripheral nerve repair on the number and distribution of muscle afferent neurons in rat dorsal root ganglion, 457
Growth inhibition
Presence of dopamine $D_1$ receptors and absence of dopamine $D_2$ receptors in human cerebral meningioma tissue, 288

Head elevation
Intracranial pressure with head elevation. Letters, 651
Head holder
Breakage of the Mayfield head rest. Letter, 160
Breaks in Mayfield head holder. Letter, 977
Maintenance of Mayfield head rest. Letter, 977
Head injury
Blood pressure and intracranial pressure-volume dynamics in severe head injury: relationship with cerebral blood flow, 15
Cell-mediated immunity in severe head-injured patients: the role of suppressor lymphocytes and serum factors, 694
Contamination of jugular bulb venous oxygen saturation. Letters, 975
The effect of changes in cerebral perfusion pressure upon middle cerebral artery blood flow velocity and jugular bulb venous oxygen saturation after severe brain injury, 55
Extracranial complications of severe head injury, 901
Head-injured patients who talk and deteriorate. Letters, 161
Head injuries in golf: think first. Letter, 488
Jugular venous oxygen saturation monitoring. Letters, 162
Mild closed head injury and seizures. Letters, 654
Moderate head injury: a guide to initial management, 562
Posttraumatic cerebral arterial spasm: transcranial Doppler ultrasound, cerebral blood flow, and angiographic findings, 575
Risk factors predicting operable intracranial hematomas in head injury, 9
Ultra-early evaluation of regional cerebral blood flow in severely head-injured patients using xenon-enhanced computerized tomography, 360
Usefulness of $\beta_2$-transferrin assay in the detection of cerebrospinal fluid leaks following head injury, 737
Hearing
Late course of preserved hearing and tinnitus after acoustic neurilemoma surgery, 685
The significance for postoperative hearing of preserving the labyrinth in acoustic neurinoma surgery, 677
Hematoma, *see* various types
Hematomyelia
Scoliosis in pediatric Chiari malformations without myelodysplasia, 69
Hemifacial spasm
Oblique sagittal magnetic resonance imaging visualizing vascular compression of the trigeminal or facial nerve, 379
Hemorrhage, *see also* specific type
Venous drainage in hemorrhage from AVM's. Letters, 822
Henry II of France
The death of Henry II of France, 964
Herpes simplex
Expanded spectrum of viral therapy in the treatment of nervous system tumors, 590
Hippocampal sclerosis
Seizure outcome following standard temporal lobectomy: correlation with hippocampal neuron loss and extrahippocampal pathology, 194
Hippocampus
Seizure outcome following standard temporal lobectomy: correlation with hippocampal neuron loss and extrahippocampal pathology, 194
Histochemistry
Dural fibromatosis. Letters, 163

Transaqueductal migration of a neurocysticercus cyst. Case report, 956
Hydrosyringomyelia
Scoliosis in pediatric Chiari malformations without myelodysplasia, 69
Hypertension
Arterial hypertension and neurovascular compression at the ventrolateral medulla. A comparative microanatomical and pathological study, 103
Endovascular treatment of intracranial dural arteriovenous fistulas with spinal perimedullary venous drainage, 718
Guest editorial: Neurovascular compression and essential hypertension, 101
Hypoglossal nerve
Hypoglossal-facial nerve anastomosis for facial nerve palsy following surgery for cerebellopontine angle tumors, 724
Hypothermia
Reduction by delayed hypothermia of cerebral infarction following middle cerebral artery occlusion in the rat: a time-course study, 438

Immunohistochemistry
Inflammatory leukocytes associated with increased immunosuppression by glioblastoma, 120
Immunotherapy
Antitumor activity against established intracerebral gliomas exhibited by cytotoxic T lymphocytes, but not by lymphokine-activated killer cells, 757
A morphological and ultrastructural investigation of normal mouse brain tissue after intracerebral injection of tumor necrosis factor, 279
Implantable pump
Intrathecal baclofen for spasticity of spinal origin: seven years of experience, 236
Infarction
Intracranial lipoma associated with cerebral saccular aneurysm. Case report, 640
Infection
Cell-mediated immunity in severe head-injured patients: the role of suppressor lymphocytes and serum factors, 694
Instrumentation
Ancient skull surgery. Letter, 658
Breakage of the Mayfield head rest. Letter, 160
Breaks in Mayfield head holder. Letter, 977
Linear accelerator radiosurgery for arteriovenous malformations, 832
Maintenance of Mayfield head rest. Letter, 977
Suction control attachment for ultrasonic aspirators. Technical note, 316
Transpedicular screw-rod fixation of the lumbar spine: operative technique and outcome in 104 cases, 860
Insulin-like growth factor
Insulin and insulin-like growth factors in central nervous system tumors. Part V: Production of insulin-like growth factors I and II *in vitro*, 445
Interleukin-6
Cytokines and immunoregulatory molecules in malignant glial neoplasms, 265
Interventional radiology
Selection and combination of various endovascular techniques in the treatment of giant aneurysms, 37
Intervertebral disc
Epidural steroids, postoperative morbidity, and recovery in patients undergoing microsurgical lumbar discectomy, 90
Management of cervical spinal cord injury in ankylosing spondylitis: the intervertebral disc as a cause of cord compression, 241
Periodontoid disc herniation vs. degenerated ligaments presenting as extradural mass. Letters, 330
Risks of laser discolysis. Letters, 978
Intracranial hematoma
Risk factors predicting operable intracranial hematomas in head injury, 9
Ultra-early evaluation of regional cerebral blood flow in severely head-injured patients using xenon-enhanced computerized tomography, 360
Intracranial hemorrhage
Clinical outcome of radiosurgery for cerebral arteriovenous malformations, 1
Intracranial pressure
Blood pressure and intracranial pressure-volume dynamics in severe head injury: relationship with cerebral blood flow, 15
Intracranial pressure with head elevation. Letters, 651
Occlusion of the pig superior sagittal sinus, bridging and cortical veins: multistep evolution of sinus-vein thrombosis, 127
Intrathecal drug infusion
Intrathecal baclofen for spasticity of spinal origin: seven years of experience, 236
Intrathecal chemotherapy with ACNU in a meningeal gliomatosis rat model, 778
Ischemia
Effects of intermittent reperfusion during temporal focal ischemia, 911
Loss of cerebral regulation during cardiac output variations in focal cerebral ischemia, 253
Pathophysiology and treatment of focal cerebral ischemia. Part I: Pathophysiology, 169
Pathophysiology and treatment of focal cerebral ischemia. Part II: Mechanisms of damage and treatment, 337
Posttraumatic cerebral arterial spasm: transcranial Doppler ultrasound, cerebral blood flow, and angiographic findings, 575
Reduction by delayed hypothermia of cerebral infarction following middle cerebral artery occlusion in the rat: a time-course study, 438
Ultra-early evaluation of regional cerebral blood flow in severely head-injured patients using xenon-enhanced computerized tomography, 360
Unruptured aneurysms and postoperative volume expansion, 908
Isotope labeling
$^{99m}$Tc-hexamethylpropyleneamine oxime leukocyte scintigraphy and C-reactive protein levels in the differential diagnosis of brain abscesses, 732

Jugular venous oxygen saturation
Contamination of jugular bulb venous oxygen saturation. Letters, 975
Jugular venous oxygen saturation monitoring. Letters, 162
The effect of changes in cerebral perfusion pressure upon middle cerebral artery blood flow velocity and jugular bulb venous oxygen saturation after severe brain injury, 55
Juvenile pilocytic astrocytoma
Radiation therapy for juvenile pilocytic astrocytoma of the pituitary stalk. Case report, 139

Labyrinth
The significance for postoperative hearing of preserving the labyrinth in acoustic neurinoma surgery, 677

# Index

Laminectomy
Long-term evaluation of decompressive surgery for degenerative lumbar stenosis, 669
Surgical decompression for symptomatic Chiari II malformation in neonates with myelomeningocele, 541
Language
Resection of dominant opercular gliosis in refractory partial epilepsy. Report of two cases, 632
Laser
*In situ* photocoagulation of spinal dural arteriovenous malformations using the Nd:YAG laser, 571
Lazarus' sign
Lazarus' sign in brain-dead patients. Letters, 823
Leptomeningeal tumor
Diffuse leptomeningeal involvement by a ganglioglioma in a child. Case report, 302
Leukocyte
Inflammatory leukocytes associated with increased immunosuppression by glioblastoma, 120
$^{99m}$Tc-hexamethylpropyleneamine oxime leukocyte scintigraphy and C-reactive protein levels in the differential diagnosis of brain abscesses, 732
Leukotriene
The effect of 5-lipoxygenase inhibition on blood-brain barrier permeability in experimental brain tumors, 403
Selective blood-tumor barrier disruption by leukotrienes, 407
Lipoma
Intracranial lipoma associated with cerebral saccular aneurysm. Case report, 640
Intraosseous lipoma of the skull. Letter, 976
Lipoxygenase
The effect of 5-lipoxygenase inhibition on blood-brain barrier permeability in experimental brain tumors, 403
Lucid interval
Head-injured patients who talk and deteriorate. Letters, 161
Lumbar spine
Long-term evaluation of decompressive surgery for degenerative lumbar stenosis, 669
Lymphokine-activated killer cell
Antiproliferative cytokines secreted by lymphokine-activated killer cells stimulated with tumor cells, 411
Antitumor activity against established intracerebral gliomas exhibited by cytotoxic T lymphocytes, but not by lymphokine-activated killer cells, 757
Cell-mediated immunity in severe head-injured patients: the role of suppressor lymphocytes and serum factors, 694

Magnetic resonance imaging
Measurement of tumor resection volumes from computerized images. Technical note, 151
Oblique sagittal magnetic resonance imaging visualizing vascular compression of the trigeminal or facial nerve, 379
Significance of gadolinium-enhanced magnetic resonance imaging in differentiating spinal cord radiation myelopathy from tumor. Case report, 628
Sinus pericranii: radiological and etiopathological considerations. Case report, 469
Transaqueductal migration of a neurocysticercus cyst. Case report, 956
Mahaley, M. Stephen, Jr.
M. Stephen Mahaley, Jr., M.D., Ph.D., 1932–1992, 829
Mannitol
Aggravation of vasogenic cerebral edema by multiple-dose mannitol, 584
Medulla oblongata
Arterial hypertension and neurovascular compression at the ventrolateral medulla. A comparative microanatomical and pathological study, 103
Chiari malformation with compression of the medulla oblongata by the vertebral arteries. Case report, 307
Medulloblastoma
Expanded spectrum of viral therapy in the treatment of nervous system tumors, 590
Memory
Evaluation of a novel calcium channel blocker, (S)-emopamil, on regional cerebral edema and neurobehavioral function after experimental brain injury, 607
Meningeal gliomatosis
Intrathecal chemotherapy with ACNU in a meningeal gliomatosis rat model, 778
Meningioma
Classic, atypical, and anaplastic meningioma: three histopathological subtypes of clinical relevance, 616
Expanded spectrum of viral therapy in the treatment of nervous system tumors, 590
Presence of dopamine $D_1$ receptors and absence of dopamine $D_2$ receptors in human cerebral meningioma tissue, 288
Meningitis
Retromastoid cisternal Ommaya reservoir for intrathecal therapy of coccidioidomycosis meningitis. Technical note, 476
Metabolism
Regional metabolism in experimental brain tumors in cats: relationship with acid/base, water, and electrolyte homeostasis, 917
Metastasis
Diffuse leptomeningeal involvement by a ganglioglioma in a child. Case report, 302
Resection for solitary brain metastasis. Role of adjuvant radiation and prognostic variables in 229 patients, 531
Methylprednisolone
Methylprednisolone for spinal cord injury. Letters, 324
Microcirculation
An *in vitro* comparative study of conducting vessels and penetrating arterioles after experimental subarachnoid hemorrhage in the rabbit, 113
Microvascular decompression
Oblique sagittal magnetic resonance imaging visualizing vascular compression of the trigeminal or facial nerve, 379
Middle cerebral artery
Emergency embolectomy for embolic occlusion of the middle cerebral artery after internal carotid artery balloon test occlusion. Case report, 134
Reduction by delayed hypothermia of cerebral infarction following middle cerebral artery occlusion in the rat: a time-course study, 438
Variability of the territories of the major cerebral arteries, 927
Movement disorder
Symptomatic and functional outcome of stereotactic ventralis lateralis thalamotomy for intention tremor, 223
Moyamoya disease
Long-term follow-up study after extracranial-intracranial bypass surgery for anterior circulation ischemia in childhood moyamoya disease, 84
Myelomeningocele
Spinal arachnoid cysts in the pediatric age group: an association with neural tube defects, 369
Surgical decompression for symptomatic Chiari II malformation in neonates with myelomeningocele, 541
Myelopathy
Endovascular treatment of intracranial dural arteriovenous fistulas with spinal perimedullary venous drainage, 718
Significance of gadolinium-enhanced magnetic resonance imaging in differentiating spinal cord radiation myelopathy from tumor. Case report, 628

Neonate
Current prognosis in fetal ventriculomegaly, 551

Infection of cerebrospinal fluid shunts in infants: a study of etiological factors, 29
Intracranial arterial aneurysm due to birth trauma. Case report, 799
Nerve, *see* specific nerves
Nerve regeneration
Effects of different methods of peripheral nerve repair on the number and distribution of muscle afferent neurons in rat dorsal root ganglion, 457

Effects of different methods of peripheral nerve repair on the number and distribution of muscle afferent neurons in rat dorsal root ganglion, 457
Experimental repair of the oculomotor nerve: the anatomical paradigms of functional regeneration, 768
Neural tube defect
Spinal arachnoid cysts in the pediatric age group: an association with neural tube defects, 369
Neurocysticercosis
Transaqueductal migration of a neurocysticercus cyst. Case report, 956
Neurofibrosarcoma
Expanded spectrum of viral therapy in the treatment of nervous system tumors, 590
Neuropeptide Y
Neuropeptide Y in the primate model of subarachnoid hemorrhage, 417
Neurosurgical history, *see also* Historical vignette
Ancient skull surgery. Letter, 658
The death of Henry II of France, 964
Neurovascular compression
Arterial hypertension and neurovascular compression at the ventrolateral medulla. A comparative microanatomical and pathological study, 103
Guest editorial: Neurovascular compression and essential hypertension, 101
Nucleolar organizer region
Classic, atypical, and anaplastic meningioma: three histopathological subtypes of clinical relevance, 616
Nucleolysis
Risks of laser discolysis. Letters, 978

Obituary
M. Stephen Mahaley, Jr., M.D., Ph.D., 1932–1992, 829
Oculomotor nerve
Experimental repair of the oculomotor nerve: the anatomical paradigms of functional regeneration, 768
Odontoid process
Childhood odontoid fractures evaluated with computerized tomography. Case report, 795
The influence of transoral odontoid resection on stability of the craniovertebral junction, 525
Periodontoid disc herniation vs. degenerated ligaments presenting as extradural mass. Letters, 330
Oncogene
Association of epidermal growth factor receptor gene amplification with loss of chromosome 10 in human glioblastoma multiforme, 295
Operative technique, *see also* Surgical approach and specific approaches
Cerebral hemicorticectomy for epilepsy, 889
Saphenous vein graft to the distal vertebral artery between C-1 and C-2 using a lateral-anterior approach. Technical note, 812
Syrinx shunt to posterior fossa cisterns (syringocisternostomy) for bypassing obstructions of upper cervical theca, 871
Treatment of fusiform intracranial aneurysms by circumferential wrapping with clip reinforcement. Technical note, 478
Tumors of the lateral wall of the cavernous sinus, 508
Operculum
Resection of dominant opercular gliosis in refractory partial epilepsy. Report of two cases, 632
Ophthalmoplegia
The benign course of cavernous carotid artery aneurysms, 690
Optic nerve
Bilateral morning glory syndrome associated with sphenoid encephalocele. Case report, 949
Orbit
A two-step supraorbital approach to lesions of the orbital apex. Technical note, 959
Osteochondroma
On spinal osteochondromas, 247
Outcome
Extracranial complications of severe head injury, 901
Oxyhemoglobin
Oxyhemoglobin stimulation of endothelin production in cultured endothelial cells, 274
Oxytocin
Effects of vasopressin and oxytocin on canine cerebral circulation *in vivo*, 424

Pain
Facial pain due to vascular lesions of the brain stem relieved by dorsal root entry zone lesions in the nucleus caudalis. Report of two cases, 473
Intractable pain of spinal cord origin: clinical features and implications for surgery, 373
Pallidotomy
Posteroventral pallidotomy for Parkinson's disease. Letters, 487
Papaverine
Superselective intra-arterial infusion of papaverine for the treatment of cerebral vasospasm after subarachnoid hemorrhage, 842
Sustained release of papaverine for the treatment of cerebral vasospasm. *In vitro* evaluation of release kinetics and biological activity, 783
Treatment of cerebral vasospasm with intra-arterial papaverine, 848
Parkinson's disease
Posteroventral pallidotomy for Parkinson's disease. Letters, 487
Penumbra
Pathophysiology and treatment of focal cerebral ischemia. Part I: Pathophysiology, 169
Pathophysiology and treatment of focal cerebral ischemia. Part II: Mechanisms of damage and treatment, 337
Peripheral nerve
Effects of different methods of peripheral nerve repair on the number and distribution of muscle afferent neurons in rat dorsal root ganglion, 457
Pharmacokinetics
Sustained release of papaverine for the treatment of cerebral vasospasm. *In vitro* evaluation of release kinetics and biological activity, 783
Pineal gland
Ophthalmological complications in pineal tumor surgery. Letters, 821
Surgical management of symptomatic pineal cysts, 896
Pituitary tumor
Radiation therapy for juvenile pilocytic astrocytoma of the pituitary stalk. Case report, 139
Polytetrafluoroethylene
An artificial blood vessel with an endothelial-cell monolayer, 397
Polyvinyl alcohol
Arteriovenous malformations of the brain: choosing embolic

materials to enhance safety and ease of excision, 217
Posterior cerebral artery
Variability of the territories of the major cerebral arteries, 927
Posterior circulation
Endovascular treatment of posterior circulation aneurysms by electrothrombosis using electrically detachable coils, 515
Presidential address
The AANS: The national and international organization for neurological surgery. The 1992 AANS presidential address, 663
Prognosis
Resection for solitary brain metastasis. Role of adjuvant radiation and prognostic variables in 229 patients, 531
Risk factors predicting operable intracranial hematomas in head injury, 9
Protease
Serum proteolytic activity during the growth of C6 astrocytoma, 595

Radiation myelopathy
Significance of gadolinium-enhanced magnetic resonance imaging in differentiating spinal cord radiation myelopathy from tumor. Case report, 628
Radiation necrosis
Detection of recurrent gliomas with quantitative thallium-201/technetium-99m HMPAO single-photon emission computerized tomography, 565
Radiation therapy
Adult intramedullary astrocytomas of the spinal cord, 355
Detection of recurrent gliomas with quantitative thallium-201/technetium-99m HMPAO single-photon emission computerized tomography, 565
Radiation therapy for juvenile pilocytic astrocytoma of the pituitary stalk. Case report, 139
Resection for solitary brain metastasis. Role of adjuvant radiation and prognostic variables in 229 patients, 531
Radiculopathy
Long-term evaluation of decompressive surgery for degenerative lumbar stenosis, 669
Radioimmunoassay
Insulin and insulin-like growth factors in central nervous system tumors. Part V: Production of insulin-like growth factors I and II *in vitro*, 445
Radiosurgery
Clinical outcome of radiosurgery for cerebral arteriovenous malformations, 1
Linear accelerator radiosurgery for arteriovenous malformations, 832
Outcome of radiosurgery for cerebral AVM. Letter, 823
Rebleeding
Clinical outcome of radiosurgery for cerebral arteriovenous malformations, 1
Rebleeding from vertebral artery dissection after proximal clipping. Case report, 466
Reconstructive surgery
A two-step supraorbital approach to lesions of the orbital apex. Technical note, 959
Reperfusion
Effects of intermittent reperfusion during temporal focal ischemia, 911
Pathophysiology and treatment of focal cerebral ischemia. Part I: Pathophysiology, 169
Pathophysiology and treatment of focal cerebral ischemia. Part II: Mechanisms of damage and treatment, 337
Retrosigmoid approach
Late course of preserved hearing and tinnitus after acoustic neurilemoma surgery, 685
Revascularization
Long-term follow-up study after extracranial-intracranial bypass surgery for anterior circulation ischemia in childhood moyamoya disease, 84
Rheumatoid arthritis
The influence of transoral odontoid resection on stability of the craniovertebral junction, 525

Sacrum
Acute cauda equina syndrome from a ruptured aneurysm in the sacral canal. Case report, 945
Saphenous vein graft
Saphenous vein graft to the distal vertebral artery between C-1 and C-2 using a lateral-anterior approach. Technical note, 812
Scoliosis
Scoliosis in pediatric Chiari malformations without myelodysplasia, 69
Screw fixation
Transpedicular screw-rod fixation of the lumbar spine: operative technique and outcome in 104 cases, 860
Seizure
Cerebral hemicorticectomy for epilepsy, 889
Changes in gamma-aminobutyric acid and somatostatin in epileptic cortex associated with low-grade gliomas, 209
Clinical outcome of radiosurgery for cerebral arteriovenous malformations, 1
Fentanyl-induced electrocorticographic seizures in patients with complex partial epilepsy, 201
Long-term ictal monitoring with subdural strip electrodes: prognostic factors for selecting temporal lobectomy candidates, 20
Mild closed head injury and seizures. Letters, 654
Resection of dominant opercular gliosis in refractory partial epilepsy. Report of two cases, 632
Results of anterior temporal lobectomy that spares the amygdala in patients with complex partial seizures, 185
Seizure outcome following standard temporal lobectomy: correlation with hippocampal neuron loss and extrahippocampal pathology, 194
Shunt
A simple method for distal catheter lengthening of ventriculoperitoneal shunts. Technical note, 810
Current prognosis in fetal ventriculomegaly, 551
Infection of cerebrospinal fluid shunts in infants: a study of etiological factors, 29
Outcome following hindbrain decompression of symptomatic Chiari malformations in children previously treated with myelomeningocele closure and shunts, 881
Retromastoid cisternal Ommaya reservoir for intrathecal therapy of coccidioidomycosis meningitis. Technical note, 476
Shunt implantation: reducing the incidence of shunt infection, 875
Syrinx shunt to posterior fossa cisterns (syringocisternostomy) for bypassing obstructions of upper cervical theca, 871
Sinus pericranii
Sinus pericranii: radiological and etiopathological considerations. Case report, 469
Sinus thrombosis
Occlusion of the pig superior sagittal sinus, bridging and cortical veins: multistep evolution of sinus-vein thrombosis, 127
Skull base
The extended frontal approach. Letters, 655
The subtemporal, transcavernous, anterior transpetrosal approach to the upper brain stem and clivus, 709
Skull fracture
Facial nerve decompression following a basilar skull fracture. Letters, 332
Moderate head injury: a guide to initial management, 562

Skull tumor
Intraosseous lipoma of the skull. Letter, 976
Smooth muscle
Comparability of vasospasm in primates. Letters, 327
Somatostatin
Changes in gamma-aminobutyric acid and somatostatin in epileptic cortex associated with low-grade gliomas, 209
Spasticity
Intrathecal baclofen for spasticity of spinal origin: seven years of experience, 236
Spinal accessory nerve
Long-term results of spinal accessory nerve-facial nerve anastomosis, 51
Spinal arteriovenous malformation
Endovascular treatment of intracranial dural arteriovenous fistulas with spinal perimedullary venous drainage, 718
Spinal artery
Isolated intramedullary spinal artery aneurysm presenting with quadriplegia. Case report, 148
Spinal cord blood flow
Sympathectomy and spinal cord blood flow. Letters, 654
Spinal cord compression
Isolated intramedullary spinal artery aneurysm presenting with quadriplegia. Case report, 148
Posttraumatic cervical spondyloptosis at C6–7 with late-onset cord compression. Case report, 792
Spinal arachnoid cysts in the pediatric age group: an association with neural tube defects, 369
Spinal cord injury
Management of cervical spinal cord injury in ankylosing spondylitis: the intervertebral disc as a cause of cord compression, 241
Methylprednisolone for spinal cord injury. Letters, 324
Pediatric spinal injury: review of 174 hospital admissions, 700
Pediatric spinal injury: review of 61 deaths, 705
Spinal cord stimulation
Intractable pain of spinal cord origin: clinical features and implications for surgery, 373
Spinal fracture
Pediatric spinal injury: review of 174 hospital admissions, 700
Pediatric spinal injury: review of 61 deaths, 705
Spinal fusion
Botulinum toxin enhancement of postoperative immobilization in patients with cervical dystonia. Technical note, 808
Long-term evaluation of decompressive surgery for degenerative lumbar stenosis, 669
Posttraumatic cervical spondyloptosis at C6–7 with late-onset cord compression. Case report, 792
The influence of transoral odontoid resection on stability of the craniovertebral junction, 525
Transpedicular screw-rod fixation of the lumbar spine: operative technique and outcome in 104 cases, 860
Spinal neoplasm
Adult intramedullary astrocytomas of the spinal cord, 355
On spinal osteochondromas, 247
Significance of gadolinium-enhanced magnetic resonance imaging in differentiating spinal cord radiation myelopathy from tumor. Case report, 628
Tenosynovial giant-cell tumor of the cervical spine. Case report, 952
Spondylolisthesis
Long-term evaluation of decompressive surgery for degenerative lumbar stenosis, 669
Posttraumatic cervical spondyloptosis at C6–7 with late-onset cord compression. Case report, 792
Sports injury
Head injuries in golf: think first. Letter, 488
Stereotaxis
Control of tremor and involuntary movement disorders by chronic stereotactic stimulation of the ventral intermediate thalamic nucleus, 62
Intracavitary brachytherapy of cystic craniopharyngiomas, 545
Linear accelerator radiosurgery for arteriovenous malformations, 832
Symptomatic and functional outcome of stereotactic ventralis lateralis thalamotomy for intention tremor, 223
Stroke
Long-term follow-up study after extracranial-intracranial bypass surgery for anterior circulation ischemia in childhood moyamoya disease, 84
Sturge-Weber syndrome
Cerebral hemicorticectomy for epilepsy, 889
Subarachnoid hemorrhage
The benign course of cavernous carotid artery aneurysms, 690
Effects of vasopressin and oxytocin on canine cerebral circulation *in vivo*, 424
Inhibition of delayed arterial narrowing by the iron-chelating agent deferoxamine, 763
An *in vitro* comparative study of conducting vessels and penetrating arterioles after experimental subarachnoid hemorrhage in the rabbit, 113
Is vasospasm related to proliferative arteriopathy, 740
Neuropeptide Y in the primate model of subarachnoid hemorrhage, 417
The role of endothelin-1 in the origin of cerebral vasospasm in patients with aneurysmal subarachnoid hemorrhage, 96
Superselective intra-arterial infusion of papaverine for the treatment of cerebral vasospasm after subarachnoid hemorrhage, 842
Thrombosis of difficult intracranial aneurysms by the endovascular placement of platinum-Dacron microcoils, 43
Treatment of cerebral vasospasm with intra-arterial papaverine, 848
Subdural hematoma
Two fluid-blood density levels in chronic subdural hematoma. Case report, 310
Suction device
Suction control attachment for ultrasonic aspirators. Technical note, 316
Superior sagittal sinus
Occlusion of the pig superior sagittal sinus, bridging and cortical veins: multistep evolution of sinus-vein thrombosis, 127
Supraorbital approach
A two-step supraorbital approach to lesions of the orbital apex. Technical note, 959
Surgical approach, *see also* Operative technique
Adult intramedullary astrocytomas of the spinal cord, 355
The extended frontal approach. Letters, 655
Ophthalmological complications in pineal tumor surgery. Letters, 821
The subtemporal, transcavernous, anterior transpetrosal approach to the upper brain stem and clivus, 709
A two-step supraorbital approach to lesions of the orbital apex. Technical note, 959
Sylvian fissure
Intracranial lipoma associated with cerebral saccular aneurysm. Case report, 640
Sympathectomy
Sympathectomy and spinal cord blood flow. Letters, 654
Synchondrosis
Childhood odontoid fractures evaluated with computerized tomography. Case report, 795
Syrinx
Syrinx shunt to posterior fossa cisterns (syringocisternostomy) for bypassing obstructions of upper cervical theca, 871

T cell activation
Proliferative potential of T-cell lymphocytes from gliomas. Letters, 820

# Index

Temporal lobectomy
Long-term ictal monitoring with subdural strip electrodes: prognostic factors for selecting temporal lobectomy candidates, 20
Results of anterior temporal lobectomy that spares the amygdala in patients with complex partial seizures, 185
Tentorial incisura
Intracranial arterial aneurysm due to birth trauma. Case report, 799
Teratoma
Third ventricle germinoma after total removal of intrasellar teratoma. Case report, 643
Terminology
Precise terminology in scientific communications. Letter, 159
Thalamotomy
Symptomatic and functional outcome of stereotactic ventralis lateralis thalamotomy for intention tremor, 223
Thalamus
Control of tremor and involuntary movement disorders by chronic stereotactic stimulation of the ventral intermediate thalamic nucleus, 62
Thallium-201
Detection of recurrent gliomas with quantitative thallium-201/technetium-99m HMPAO single-photon emission computerized tomography, 565
Third ventricle germinoma
Third ventricle germinoma after total removal of intrasellar teratoma. Case report, 643
Thrombosis
Giant thrombosed vertebral artery aneurysm managed with extracranial-intracranial bypass surgery and aneurysmectomy. Case report, 624
Precise terminology in scientific communications. Letter, 159
Thrombosis of difficult intracranial aneurysms by the endovascular placement of platinum-Dacron microcoils, 43
Thrombotic material
Direct thrombosis of aneurysms with cellulose acetate polymer. Part I: Results of thrombosis in experimental aneurysms, 497
Direct thrombosis of aneurysms with cellulose acetate polymer. Part II: Preliminary clinical experience, 501
Tinnitus
Late course of preserved hearing and tinnitus after acoustic neurilemoma surgery, 685
T lymphocyte
Antitumor activity against established intracerebral gliomas exhibited by cytotoxic T lymphocytes, but not by lymphokine-activated killer cells, 757
Transferrin
Usefulness of $\beta_2$-transferrin assay in the detection of cerebrospinal fluid leaks following head injury, 737
Transforming growth factor
Cytokines and immunoregulatory molecules in malignant glial neoplasms, 265
Transoral approach
The influence of transoral odontoid resection on stability of the craniovertebral junction, 525
Transpetrosal approach
The subtemporal, transcavernous, anterior transpetrosal approach to the upper brain stem and clivus, 709
Transplantation
Acute cauda equina syndrome from a ruptured aneurysm in the sacral canal. Case report, 945
Traumatic Coma Data Bank
Extracranial complications of severe head injury, 901
Traumatic Coma Data Bank data-collection protocol. Letter, 159
Tremor
Control of tremor and involuntary movement disorders by chronic stereotactic stimulation of the ventral intermediate thalamic nucleus, 62
Symptomatic and functional outcome of stereotactic ventralis lateralis thalamotomy for intention tremor, 223
Trigeminal neuralgia
Oblique sagittal magnetic resonance imaging visualizing vascular compression of the trigeminal or facial nerve, 379
Treatment of trigeminal neuralgia by ophthalmic anesthetic. Letter, 159
Tumor, *see also* specific tumor
Insulin and insulin-like growth factors in central nervous system tumors. Part V: Production of insulin-like growth factors I and II *in vitro*, 445
Tumor growth
Serum proteolytic activity during the growth of C6 astrocytoma, 595
Tumor necrosis factor
A morphological and ultrastructural investigation of normal mouse brain tissue after intracerebral injection of tumor necrosis factor, 279
Antiproliferative cytokines secreted by lymphokine-activated killer cells stimulated with tumor cells, 411
Clinical effect of intra-arterial tumor necrosis factor-$\alpha$ for malignant glioma, 78
Cytokines and immunoregulatory molecules in malignant glial neoplasms, 265
Tumor recurrence
Classic, atypical, and anaplastic meningioma: three histopathological subtypes of clinical relevance, 616
Remote recurrence of craniopharyngioma in the epidural space. Case report, 804
Tumor volume
Measurement of tumor resection volumes from computerized images. Technical note, 151

Ultrasound
Posttraumatic cerebral arterial spasm: transcranial Doppler ultrasound, cerebral blood flow, and angiographic findings, 575
University of Michigan
Development of neurosurgery at the University of Michigan, 962
University of Pennsylvania
Hospital of the University of Pennsylvania, 648

Vascular graft
An artificial blood vessel with an endothelial-cell monolayer, 397
Vasopressin
Effects of vasopressin and oxytocin on canine cerebral circulation *in vivo*, 424
Vasospasm
Comparability of vasospasm in primates. Letters, 327
Inhibition of delayed arterial narrowing by the iron-chelating agent deferoxamine, 763
An *in vitro* comparative study of conducting vessels and penetrating arterioles after experimental subarachnoid hemorrhage in the rabbit, 113
Is vasospasm related to proliferative arteriopathy, 740
Neuropeptide Y in the primate model of subarachnoid hemorrhage, 417
Oxyhemoglobin stimulation of endothelin production in cultured endothelial cells, 274
Posttraumatic cerebral arterial spasm: transcranial Doppler ultrasound, cerebral blood flow, and angiographic findings, 575
The role of endothelin-1 in the origin of cerebral vasospasm in patients with aneurysmal subarachnoid hemorrhage, 96
Superselective intra-arterial infusion of papaverine for the treatment of cerebral vasospasm after subarachnoid hemorrhage, 842

Sustained release of papaverine for the treatment of cerebral vasospasm. *In vitro* evaluation of release kinetics and biological activity, 783
Treatment of cerebral vasospasm with intra-arterial papaverine, 848
Unruptured aneurysms and postoperative volume expansion, 908
Venous drainage
Venous drainage in hemorrhage from AVM's. Letters, 822
Venous drainage system and risk of hemorrhage from AVM's. Letters, 652
Ventriculomegaly
Current prognosis in fetal ventriculomegaly, 551
Ventriculoperitoneal shunt
Shunt implantation: reducing the incidence of shunt infection, 875
A simple method for distal catheter lengthening of ventriculoperitoneal shunts. Technical note, 810
Vertebral artery
Chiari malformation with compression of the medulla oblongata by the vertebral arteries. Case report, 307
Effects of vasopressin and oxytocin on canine cerebral circulation *in vivo*, 424
Giant thrombosed vertebral artery aneurysm managed with extracranial-intracranial bypass surgery and aneurysmectomy. Case report, 624
Rebleeding from vertebral artery dissection after proximal clipping. Case report, 466
Saphenous vein graft to the distal vertebral artery between C-1 and C-2 using a lateral-anterior approach. Technical note, 812
Vertebrobasilar insufficiency
Angioplasty for basilar artery atherosclerosis. Case report, 941
Vision
Intracavitary brachytherapy of cystic craniopharyngiomas, 545
Volume expansion
Unruptured aneurysms and postoperative volume expansion, 908
Volumetric analysis
Measurement of tumor resection volumes from computerized images. Technical note, 151

Washington University
Barnes Hospital and the Washington University Medical Center, 318
Wrapping
Treatment of fusiform intracranial aneurysms by circumferential wrapping with clip reinforcement. Technical note, 478

Xanthoastrocytoma
Temporal lobe tumor demonstrating ganglioglioma and pleomorphic xanthoastrocytoma components. Case report, 143
X-chromosome
Clonal composition of glioblastoma multiforme, 432
